# The Bay State Nurseries

WINDSOR H. WYMAN, Proprietor

**North Abington, Massachusetts.**

---

## WHOLESALE PRICE LIST SPRING 1918

FOR NURSERYMEN, DEALERS, FLORISTS AND  
LANDSCAPE ARCHITECTS ONLY.

Trees, Shrubs, Evergreens, Vines,  
Roses and Herbaceous Perennials.

---

INDEX ON PAGE 71

---

Long Distance Telephone, Rockland 26.

Cable Address, "Nursery," Boston.

Telegraphic Address, North Abington, Mass.

### Location of Nurseries

The Bay State Nurseries are located in North Abington, Mass., 18 miles south of Boston, on the Plymouth division of the N. Y., N. H. & H. R. R.—half way from Boston to Plymouth. Trains leave the South Station at frequent intervals during the day. Visitors are always welcome. Our office is ten minutes' walk from the station. If notified, we gladly meet visitors at the station and take them about the nurseries.

### The Shipping Season

We begin digging about March 20th, and continue usually until early in June. Evergreens and Herbaceous Perennials can be successfully transplanted until the middle of June.

### Directions for Shipping

Parties ordering are requested to state explicitly the mode of conveyance by which they desire their stock forwarded.

When no route is designated, we exercise our judgment; but in no case do we assume any responsibility after packages are shipped, unless for our own mistakes. When losses occur by detention, claims should at once be made on the TRANSPORTATION COMPANY.

## INSPECTOR'S CERTIFICATE ACCOMPANIES EVERY SHIPMENT

---

### CONDITIONS OF SALE

First—The articles on the following list will be furnished at the annexed prices only when the quantity specified shall be taken. Five hundred will be furnished at the thousand rate; fifty at the hundred rate and five at the ten rate. Perennials we furnish twenty-five at the hundred rate.

Second—We give no warranty, expressed or implied, as to quality, description, productiveness, or any other matter of any nursery stock that we sell. No complaints will be considered that are not made within ten days after receipt of stock.

Third—The prices annexed do not include the boxes or bales. A charge for the actual cost of the boxes or the material used in baling is made. No charge for conveyance to freight station.

Our terms are cash, unless by special agreement. We can ship by express C. O. D., when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. Said guarantee will be required only from parties with whom we have no business acquaintance. All bills remaining unpaid December 1st in fall, and June 1st in spring, will be subject to sight draft without further notice.

PACKING HOUSE ADJOINING RAILROAD SIDING

## Ornamental Department

NOTE — In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly; **UNLESS OTHERWISE ADVISED.**

A partial view of our Evergreens in the Nursery.

**MEDAL OF HONOR** awarded us at the **Panama-Pacific Exposition in 1915 for Evergreens**

## EVERGREEN TREES

These Evergreens are all thrifty and heavily rooted, and have been several times transplanted. We have a number of large specimen Evergreens in variety not listed, also choice sorts recently imported. They can be seen at the nursery when prices will be given. It will pay you to come and see them.

 All Evergreens hereafter will be B & B (balled and burlapped), without extra charge. In the case of small trees several will be lifted with a ball and wrapped together in one bundle; all larger trees will be burlapped separately.

Partial view of Rhododendrons, Kalmias and Buxus in our Nurseries.

## RHODODENDRONS

We make a specialty of importing and growing Rhododendrons. Our stock comprises many thousands of the Hybrid varieties, all of which have been tested as to their merits for hardiness and beauty of flower; also the best of the Dwarf Alpine varieties.

The native Catawbiense and Maximum types we offer are all nursery grown, healthy and vigorous. We can, through our collector, furnish these types in collected plants of any quantity desired. Write giving sizes and quantities wanted, and we will make special quotations.

### RHODODENDRONS—HARDY HYBRID VARIETIES

|   | Each | Per 10 |
|---|------|--------|
| Abraham Lincoln (fine red) 18 in. . . . .       | 1 00 | 9 00   |
| 24 in. . . . .                                  | 1 50 | 12 50  |

 The above are fine specimens all transplanted.  
Special quotations by the car load for collected plants.

### TESTIMONIAL: One of Many Received.

University of Illinois  
Division of Landscape Gardening

Urbana, Illinois, May 5, 1917.

Bay State Nurseries  
North Abington, Mass.

Gentlemen:-

The car load of stock which you shipped to the University of Illinois was received on Saturday and we have most of the stock planted now. You certainly shipped us a fine car load of trees and shrubs.

Sincerely yours,

Ralph R. Root  
Head of Div. of Landscape Gardening.

## DECIDUOUS SHRUBS

**MEDAL OF HONOR** awarded us at the **Panama-Pacific Exposition in 1915 for Deciduous Shrubs.**

Our shrubs are grown with plenty of space in the nursery rows to insure good, vigorous growth, and they lift with strong roots; they are healthy and make quick development after planting.

Silver Medal awarded us by the Massachusetts Horticultural Society  
for the best display of Herbaceous Flowers.

## Herbaceous Department

On account of the increasing popularity and demand for Herbaceous Perennials, our acreage has been extended from year to year, so that now this department alone covers about eighteen acres, with several greenhouses especially designed for propagating this class of plants. We are adding new and choice plants to our collection each year.

About all the plants we grow are strong field-grown; the only exceptions being a few species which transplant better by being grown in pots, also some of the choice new varieties.

### Hardy Perennials, Ferns and Grasses

Full descriptions will be found in our General Catalogue.

☛ Varieties marked with a star (★) are particularly adapted for the rock-garden.

☛ Less Than Five Plants at Double the Rate Per Hundred.  
Five plants of each variety are sold at the ten rate, and twenty-five at the hundred rate.

## A Word About Transportation

---

**In no department of its usefulness has the Auto Truck proved itself of greater value than in the delivery of nursery stock.**

---

**FIRST**—Because within a range of fifty miles from our nurseries, it can travel the distance so quickly that stock arrives as fresh as when taken from the nursery rows.

**SECONDLY**—Because the Truck lands the stock on the grounds where it is to be planted, thus saving the bother and expense of trucking and unpacking.

**THIRDLY**—Because it can be delivered at less expense than would be the boxing, freight and trucking charges if sent by freight in boxes, providing there is stock sufficient to make a respectable load for a truck.

The charges are made according to the distance travelled and the size of the truck used.

---

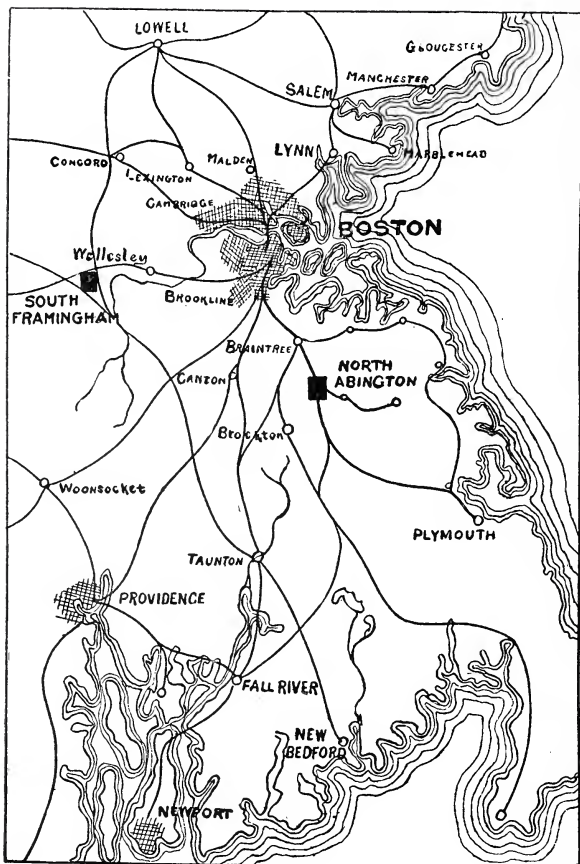

Remember that we have a siding at our packing house where we have every facility for handling car lots for long distances with promptness and efficiency.

Remember also that we are here to serve. Command and see how well we can execute your orders.

**INDEX**
